EDUCATION

K. J. Somaiya Institute of Technology Bachelor of Technology in Computer Engineering	Aug 2023 – Present <i>Mumbai, India</i>
St. John Universal School Indian School Certificate (ISC) – Grade XII	Jun 2021 – May 2023 <i>Mumbai, India</i>
Vissanji Academy Indian Certificate of Secondary Education (ICSE) – Grade X	Completed Jul 2021 <i>Mumbai, India</i>

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, PHP

Development: Flutter, Flask, HTML, CSS, REST APIs **Databases:** MySQL, SQLite

AI/ML and Data: PyTorch, TensorFlow, OpenCV, Pandas, NumPy, Computer Vision, Deep Learning

Tools and Platforms: Git, GitHub, AWS, Docker, Google Colab, Jupyter Notebook, Blender

TRAINING EXPERIENCE

GenAI and Agentic AI Intern – <i>Cladroid Technologies</i> • Explored generative and agentic AI concepts while developing an understanding of AI-driven applications and intelligent workflows.	Dec 2025 – Jan 2026
AI and Machine Learning Intern – <i>Labmentix Pvt. Ltd.</i> • Applied machine-learning concepts through Python-based projects, including data preprocessing, model development, and evaluation.	May 2025 – Jun 2025
Cybersecurity Intern – <i>Cladroid Technologies</i> • Studied cybersecurity fundamentals, common vulnerabilities, ethical-hacking concepts, and approaches to securing digital systems.	May 2025 – Jun 2025
Machine Learning Intern – <i>Cladroid Technologies</i> • Gained practical exposure to machine-learning workflows, data preparation, model implementation, and Python development.	Dec 2024 – Jan 2025

POSITIONS OF RESPONSIBILITY

IETE Student Forum, K. J. Somaiya Institute of Technology <i>Treasurer</i>	Sep 2024 – Present
<i>Joint Treasurer</i> • Progressed from Joint Treasurer to Treasurer, managing event budgets, expense tracking, sponsorship coordination, vendor finances, and logistics for technical and non-technical events. • Contributed to the planning and execution of Oscillations 2026 – Aurion , a two-day technical festival comprising eight technical and non-technical events.	Jan 2026 – Present Jan 2025 – Dec 2025

PROJECTS

SolarScope [GitHub] • Developed an AI-powered system for rooftop analysis and solar-panel detection using aerial and satellite imagery. • Implemented a sequential pipeline using DeepLabV3+ and Faster R-CNN, producing visual predictions and GeoJSON outputs.	<i>Python, Flask, PyTorch, OpenCV, GeoJSON</i>
ReFace – Forensic Facial Reconstruction [GitHub] • Developed an interactive forensic facial-reconstruction application with more than 30 parametric controls, appearance customization, hair presets, and case management. • Integrated Blender-based 3D processing with a user-friendly interface for detailed facial-model customization.	<i>Blender, Three.js, Python</i>
SeeForMe – AI Vision Assistance App [GitHub] • Built an accessibility application that analyzes images and provides real-time audio descriptions for visually impaired users. • Integrated AI-based image understanding and text-to-speech support across 10 Indian languages.	<i>Flutter, Claude API, Google TTS</i>
Real-Time Sign Language Recognition [GitHub] • Developed a ResNet-based computer-vision model for real-time hand-sign recognition and integrated it with a Flask-based prediction interface.	<i>Python, PyTorch, Flask, OpenCV</i>

ACHIEVEMENTS AND CERTIFICATIONS

- 2nd Prize – Software Category**, National-Level Project Competition, F. C. Rodrigues Institute of Technology, for presenting an innovative software-based project.
- 3rd Prize – Software Category**, TANTRAGYAN 2026 National-Level Project Competition, Lokmanya Tilak College of Engineering, for **ReFace – Forensic Facial Reconstruction**.
- Contributed to securing **2nd Prize for Best Oscillations 2026** awarded by the IETE Mumbai Centre as part of the IETE-KJSIT student committee.
- Completed the **JavaScript and PHP Programming** course on Udemy in December 2024.
- Completed the **Artificial Intelligence** course on Udemy in July 2022.
- Completed the **Ethical Hacking** course on Udemy in July 2022.
